

Hello everyone,

It is a great pleasure working with all of you. Since our last meeting I have attendend the Post confrence assembly I Ogden. At this meeting we were provide the information on what agenda items passed, and what is happening with the rest. The Assemblies and work shops regenerate me, and remind how important service is to me. During my time in service I have met a lot of people in the program. From all over the state, it is awesome to listen to people stories and getting to know them each time you see each other.

JR done a great job putting together the BTG workshop. It was wonderful what people do by taking meetings into the jails and prisons.

I know when I was incarcerated I looked for to the weekly meeting on the PODs. I have sent in multiple post cards too the Davis county jail and they have been returned, I decided to go to the post office and ask them to stamp the post card. Praying this will work. I know from experience that I looked forward to mail call. I realize that people in jails and prison have chosen the life that led them there. The guards do not care about what happens and they away privileges so quickly. Thank again JR for the great work.

I am looking forward to working more on our District workshop, Chris is doing a great job as the committee chair. We are narrowing down the dates, and location. We have positions decided for the committee.

I am grateful for the service it helps keep me busy, and takes me away from my family crap and that crazy stuff.

Thank you for allowing me to serve.
